Singapore's female candidate spotlights gender imbalance in political landscape

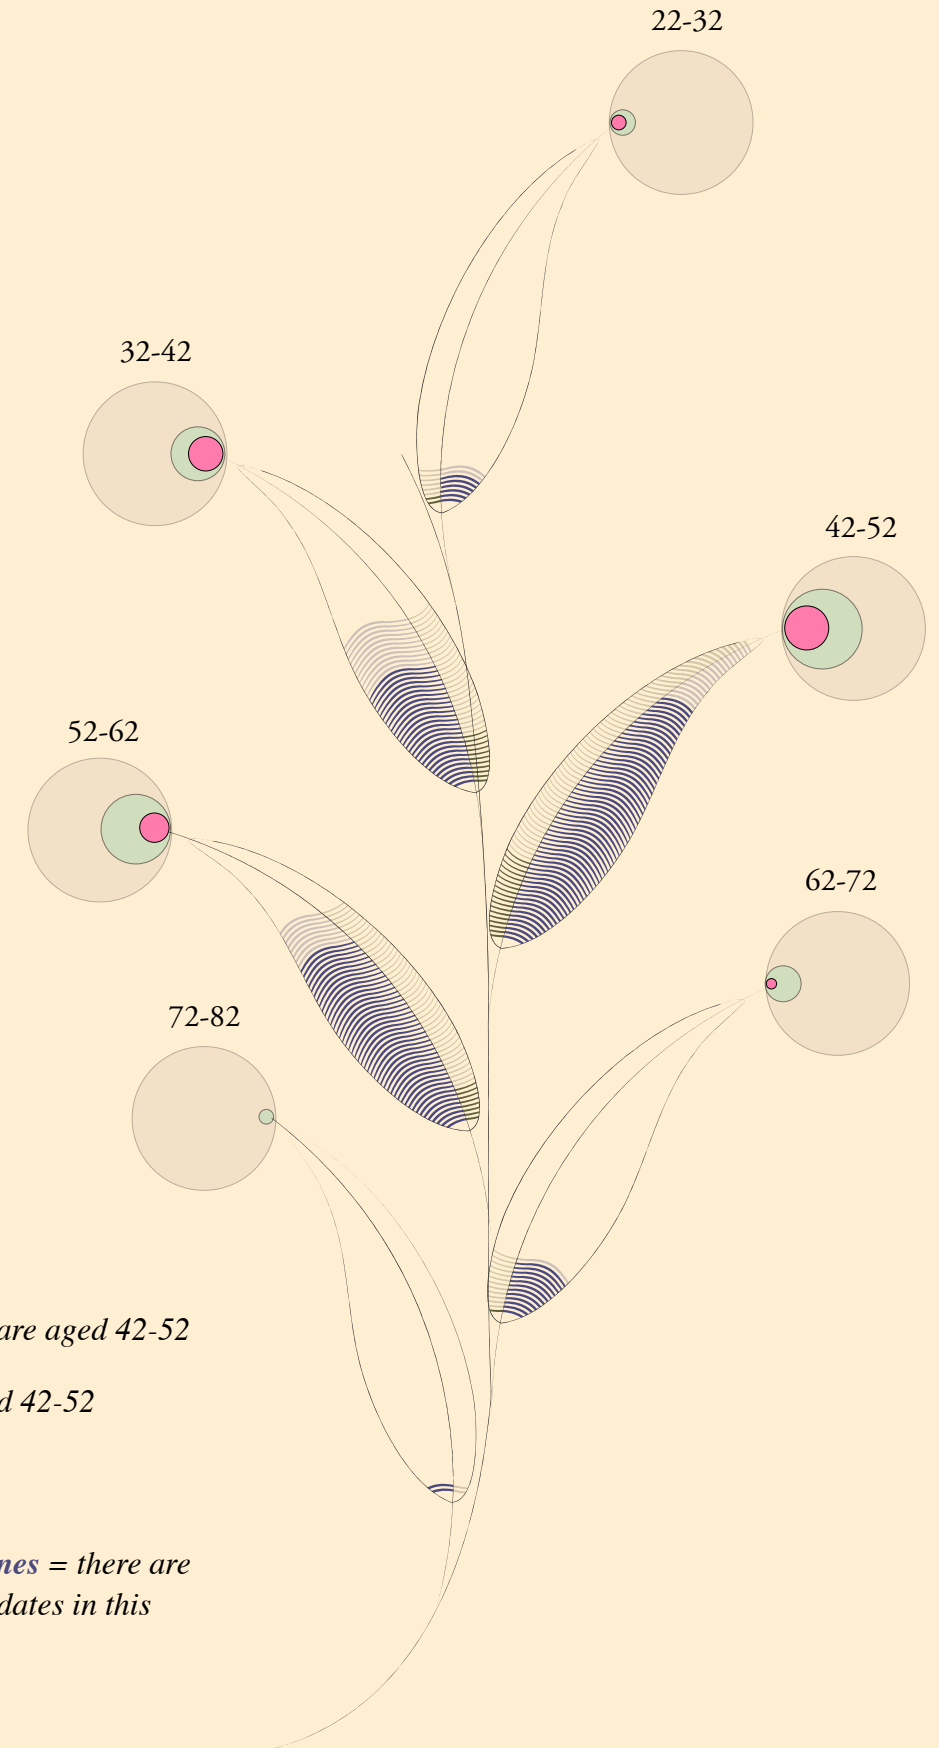

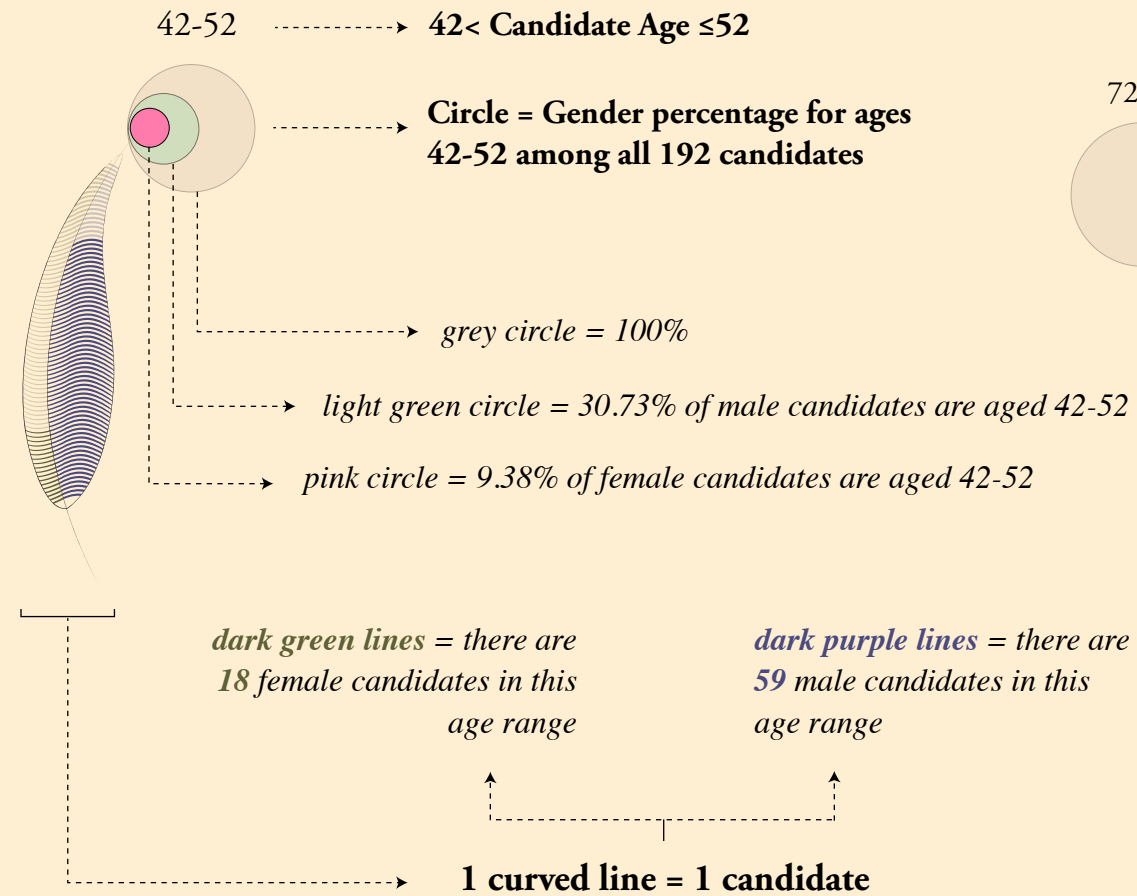

A Look at Age Dynamics in Parliament

In 2020, out of 191 candidates, only 20.9% are women, indicating a continuing decrease from 2019. The age range of 42-52 has the highest number of women candidates, with 18 in total. The core strength of female candidates is predominantly concentrated in the age ranges of 32-52. However, younger women, aged 22-32, are underrepresented, with only 25% of the 8 candidates in this age group being women, indicating a gap in political participation among younger women.

Note: the visualization excludes one male candidate who declined to share age information
